Core Competencies

Speed To Definitive Hospital Care = Improved Patient Outcomes

Doc’s Duffle Bag™ LLC is a service-disabled veteran owned small business (SDVOSB) offering clients a situation specific, and operator based collaborative approach to solving prehospital care capability shortfalls.

We are driven by a passion to alleviate suffering and aim to reduce the physical and cognitive burden on operators, thereby improving medical interventions and decreasing mortality and morbidity rates for patients. Our focus extends from the point of injury (POI) to the hospital and beyond, ensuring a seamless continuum of care for those in need.

We are dedicated to making a meaningful impact in the field of pre-hospital care through innovation, collaboration, and a relentless pursuit of excellence.

- 35+ Years’ experience private sector & military pre-hospital care management
- 30+ Years’ experience Medical Planning & Emergency Medical Treatment thought company Physician Assistant
- 20+ Years’ experience in Emergency Management & Disaster Preparedness Response
- 15+ Years’ experience in Chemical, Biological, Radiological, Nuclear, and Explosive (CBRNe) Preparedness & Response Operations
- 35+ Years’ building Medical & CBRNe Teams as practitioners, trainers, and educators
- On-Site Prototyping Lab with combined 50+ Years’ of versatile material manipulation experience

Past Performance

- “Universal Hand Over Tool” Patent Submission
- 2.5 years self-funded solution offering DoD cutting-edge prehospital care solution for critical call-outs at a fraction of DoD R&D current costs
- R&D Contract for Air Force SBIR-I Field Testing new Pole-less field litter from Combat Bound
- \$21,000 USD total sales “Universal Hand Over Tool “ products for Law Enforcement agencies

Differentiators

- Ability to rapidly design, prototype & test operator based pre-hospital care solutions
- Extensive & Diverse Teams’ work experience, knowledge base and reach back capabilities serving client’s needs
- On-site lab reduces customers cost and design time for ideas to become working prototypes or establishing proof of concept
- Established relationships with industry leaders, material suppliers and testbed agencies
